

Top Ten Reasons for Buying Candelis RIS/PACS

- 1) ImageGrid is the fastest growing RIS/PACS system in the world.
- 2) *The best performing* solution is ImageGrid. Take our “prove it to yourself” challenge.
- 3) Every ImageGrid customer has signed on to be a reference. Who would you like to call?
- 4) ImageGrid uses a new generation technology platform that slices the pricing for a complete RIS/PACS *dramatically*.
- 5) Say goodbye to your PACS Committee or Consultant. After you get past saying ImageGrid is “to good to be true,” you’ll feel like a genius.
- 6) At its standard price, ImageGrid is a *fully* functional, *fully* integrated RIS, PACS engine, Archive, Web Viewer on one system. No tiering up to get what you want.
- 7) Each day you realize just how good ImageGrid is through our uncompromising customer and technical support.
- 8) From order to installation: 3 weeks. It’s the advanced single hardware platform that reduces complexity.
- 9) Of course it’s web-based. And that’s the launch point for incredible ImageGrid networking power.
- 10) Tested and proven in over 850 data-intensive regional hospitals and imaging centers.
